

ARCTRAC

FOR EXTREME WINTER CONDITIONS

FEATURES

Sophisticated Spike Algorith[®] (intelligent spike distribution in footprint) and smart tread construction

Angular 3D contour with stepped inner groove surface

Innovative tread compound

Tapered diagonal grooves

Specially adjusted tyre contour (per size)

Centre Shift System[®]; ingenious shifting of right and left tread parts in relation to the centre of the tyre

BENEFITS

Excellent grip on snow and ice
Minimal loss of spikes

Additional diagonal grip and stability
Superb holding

Great grip even in extremely cold conditions

Superior self-cleaning performance in snow and slush

Equal pressure distribution on the spikes, improving grip

Without spikes, the tyre complies with European noise regulations
