

COMTRAC ICE

THE STUDABLE WINTER TYRE FOR EXTREME CONDITIONS

FEATURES	BENEFITS
Special PCA-free rubber compound	Excellent driveability at low temperatures and on snow and ice
Stud core hardness and dimensions match tread wear	Optimum grip and stability throughout the long service life
Perfect combination of sturdy tread and advanced stud positioning on the tyre face	Excellent self-cleaning properties, reduced braking distance and good acceleration in winter conditions
Triple flange stud construction	Reduced risk of stud loss
