

# SNOWTRAC

## GETTING A GRIP IN WINTER

FEATURES	BENEFITS
Silica Solution II in the tread • Rubber is more elastic and flexible at lower temperatures	Improved grip on wet, snowy and icy road surfaces: • 12% more grip • 10% reduction in braking distance Longer life-span
Directional tread pattern with angled lateral tread blocks	The tyre removes snow more easily Efficient and fast water disposal
Tread Control System - wave form sipes	The tyre bites into snowy or icy road surfaces (saw-tooth effect) when accelerating and braking
Robust design and modern sidewall markings	A modern, sporty winter tyre
